Thank you Tom. Your EPA paragraph helps.

Thanks.

Two quick ones on the new draft:

I think I incorporated most of your real comments with two exceptions.

First, in a couple of places, you suggested additional language (not yet drafted) saying what EPA was doing. I instead added a whole paragraph on the roles of Corps and EPA. In short, the answer is that Corps does RHA Section 10 and 408, and Corps and EPA share responsibilities under CWA 404.

Second, in the first paragraph, you wanted to use the term "conservation measures." That pressed buttons on the fish agency side, so I kept it the way it was (the generic "projects"). This is mainly an ESA issue, so I'd rather not try to resolve it in the context of a 404 MOU.

Most of the rest is self explanatory.

Also, I think you are out next week, so I'll work with Cathy to move this along.

Here is DWR's designated positions. I'll look over the new draft today.

Thank you and have a great weekend.

Michelle

Could you please fill in the blanks for the designated elevation positions for DWR, NMFS, and FWS, respectively?
This is from the 2nd page of the appendix.

Thanks in advance.
